Frederick MD 21702-2752

11/22/01

Dear Mr. McCarter,

Unexpectedly, I will be able to accept your invitation. A friend, coming from far away, has volunteered to drive me to the Archives. I believe it will be on Tuesday, December 11. We will try to make it as early as possible. Whether we will use the Metro to College Park I do not know but I will appreciate instructions if I do and if we drive all the way. What exit to take, what entrance to use to what part of the building, etc. And if there are any handicapped provision. I'll be in a wheelchair.

I've been thinking about our problem and something has come to mind that may help.

FBI SA Shaneyfelt, who did the photographic work, testified that for those slides to be printed he first had to convert them to black and white and he did that. All the printed parts of Exhibit 885 ~~and~~ are black and white. But the slides I was shown ~~y~~¹ years ago ^{were} ~~was~~ color, not black and white. Or, exhibit 885 consists of both color and black and white Zapruder slides. This means, I believe, that there ought be a file of black and white slides or photographs of slides for Exhibit 885 and I will want black and whites of the two slides that interest me.

It will be no problem at all in identifying those slides if I remembered the wrong number. We will need a projector and perhaps may want to photograph what is projected on the ^{screen} curtain. I think it may be a good idea to be prepared to photograph in both color and, ⁱⁿ black and white.

Sincerely,

Harold Weisberg
